Brent Pottery Wheels

With electronic speed controls, permanent magnetic DC motors and all steel construction, Brent pottery wheels offer the potter smooth pedal response and maximum control. Discover for yourself why Brent is the most trusted name in wheels since 1969.

All Brent wheels include a two-piece high density polypropylene molded splash pan that simply snaps under the wheelhead and is easily removed for cleaning. Each also comes with free Amaco Plasti-Bat--an easy to clean, virtually indestructible bat you'll rely on for years to come.

Model/Description

Model B Designed for schools and studio potters, this quiet wheel develops 1/3 HP to meet the power needs of schools.

Model C This 1/2 HP wheel has a long-standing reputation for mechanical efficiency, long life and quiet, vibration free durability. With sturdy, durable aluminum foot pedal.

Model CXC A potter's favorite! This top of the line wheel is reversible for both left and right handed potters and provides heavy-duty performance.

Pacifica Pottery Wheels

With sturdy steel frame and a four-belt drive system, Pacifica wheels deliver maximum torque at the wheelhead where it counts. Easily reversible for left and right handed potters. Pacifica wheels feature sturdy steel frame construction, a heavy-duty one-piece table and easy-to-clean two-piece splash pan.

Shown with “The Seat”, a comfortable, padded seat with sturdy steel frame that adjusts up/down and toward/away from the wheel. \$135

Model/Description	Center Wt.	Head Size	Price
GT-400 Great performance and value, featuring a 1/4 HP motor that develops 1/2 HP at the wheelhead. Ideal for classroom settings.	Up to 80 lbs.	13”	\$ 895
GT-800 A powerful pottery wheel with a 1/2 HP motor that develops 1 HP at the wheelhead. Ideal for larger scale pottery and sculptural work.	Up to 100 lbs.	13”	\$1,015

Skutt/Thomas Stuart Pottery Wheels

For years, Thomas Stuart wheels have enjoyed a well-deserved reputation for long-lasting performance. Now Thomas Stuart has joined forces with Skutt to form Skutt Potter’s Wheels. Each wheel has an industrial-grade motor controller that actually senses the feedback from the motor and provides constant torque through all speed ranges. The models listed here feature the only one-piece, removable splash pan on the market, making clean up a snap!

Model/Description	Center Wt.	Head Size	Price
